Selectmen's Report

To the Citizens of the Town of New Castle.

The Selectmen herewith submit the annual report for the year ending Feb. 15th 1911, setting apart a financial statement of all accounts, and we call your attention to some of these which have exceeded the amounts appropriated while there are others showing a balance on hand, however we are pleased to show you that in doing this we have accomplished much that was necessary and leave a balance in the treasury of sufficient amount to meet all current expenses until our taxes of 1911 are available.

We have built 1050 feet of State Road at a cost of \$812.33. It has been accepted by the State Engineer and a check has been received for the apportioned amount.

Through the kindness of our fellow citizen Hon. Samuel E. Barrett, we have received a donation of \$750.00 for highway work, a part of which has been expended in widening, straightening, and laying road bed from Wentworth Hill to so called Jenness Lane, this section of road is ready for covering material and the money available should finish it.

Again our most generous friend, Mr. Barrett, came forward and presented the town with a complete stone crushing plant costing over \$1600 which will be a great factor in the making of permanent roads and we would recommend that the town be liberal in their appropri

ation for this work hereafter.

The Selectmen have taken this opportunity to extend the gratitude of our towns people to Hon. L. E. Barrett for his great generosity. Also Mr. William Marvin must not be forgotten having donated grand for repairs on Hill on Oliver Street which was very badly washed away.

Necessary expense has been incurred in there building of railings along River Street, the laying of sea wall along same, also relaying of stone wall at river end of Shore Lane, the relaying of drain to catch basin in street near and across property of H. M. Curtis. Repairs to road leading from Town Pit to Wentworth Ave. rebuilding and changing exit from pit on account of complaints of hauling over and across cemetery lots, said exit is now over town property only. A drain has been dug to release surface water that heretofore has hindered work in Town Pit in the early part of the year altogether we consider the expense incurred well and economically expanded.

Report of the Board of Education

In presenting the annual report of our schools, it gives us great pleasure to be able to say that the schools of the town have enjoyed a year of general prosperity. The Grammar school and Primary school have been in charge of Miss Carrie Lyman and Miss Maude H. Trefethen. They are teachers of moral and mental worth.

Good teachers are hard to obtain, and when engaged and found successful should be retained as long as possible. We feel it to be our highest duty to employ the services of such teachers as are best adapted by natural qualifications and education to manage and instruct our schools, whenever we have succeeded in doing this, we feel that our efforts in behalf of the schools have been successful.
